Invitation

Dear Friends and Colleagues,

just a few lines to introduce you a new teaching project in bariatric surgery, the OAGB/MGB Euro Masterclass. The project has been designed at an international level by a group of surgeons working in the southern part of Europe, especially skilled with the One anastomosis/Mini Gastric Bypass (OAGB/MGB). Aim of this Masterclass is the correct teaching of the OAGB/MGB. This is currently the third most performed bariatric procedure worldwide, with an impressively growing trend; nevertheless performing correctly the OAGB/MGB remains of paramount importance to avoid controversial results as recently reported. The school counts on 5 teaching centers and nine international Teachers. All attendees will be involved in the operative theatres of the nine centers at a hands on level. Also, an important faculty of invited experts will support the teaching activities with lectures, seminars, and relive video sessions. In this light, three major fields of interest regarding the OAGB/MGB have been identified:

- Primary Surgery vs Other Procedures
- OAGB/MGB technical variants
- Revisional Surgery and Technology

The first topic will focus on OAGB/MGB performed as primary surgery. The OAGB/MGB Teachers will deeply go through indications, surgical technique, tips&tricks and appropriate follow-up. The results different procedures (LSG, LAGB, RYGBP, SADI-S, etc) currently provide, will be compared to large and significant OAGB/MGB series, and discussed as well. Participants will have the chance to stay in the O.R. during the surgery in order to share practical activities from the patient preparation to the end of the procedure deeply going through each single step.

The second topic will focus on the difference between OAGB/MGB in both technical variants. All aspects will be analyzed and discussed to provide a detailed image of these procedures. Participants will have the chance to attend the O.R. during surgery in order to see the two different approaches, while sharing practical activities, from patient preparation to surgery and to postop controls, going through each single step.

The last argument will focus on OAGB/MGB performed as revisional surgery following previous bariatric interventions. Bariatric restrictive procedures, especially adjustable gastric banding and sleeve gastrectomy, are often followed by weight regain. In these cases OAGB/MGB has proven to be an ideal approach as redo surgery. Participants will have the chance to attend the O.R. during surgery in order to share practical activities, from patient preparation to surgery and to postop controls, going through each single step.

All the three topics are to be developed by the Teachers in three rounds of five meetings each, for a total number of fifteen teaching courses. Finally, a closing event is scheduled in Naples, Italy at the end of the course.

In our opinion, this remains an excellent opportunity to learn all surgeons should know about the OAGB/MGB. We hope to find your interest.

See you all in Portugal, Italy and Israel!!!

Course Directors

Mario Musella, Miguel Carbajo, Kostas Albanopoulos, Rui Ribeiro, Nasser Sakran

Teachers

**Kostas Albanopoulos**

Hippokration General Hospital of Athens,
National and Kapodistrian University, Athens,
Greece

**Miguel Carbajo**

Centro de Excelencia para el Estudio y
Tratamiento de la Obesidad,
Valladolid, Spain

**Maurizio De Luca**

Rovigo Hospital,

CLOSING EVENT Naples (Italy), 18 February 2022			J.M. Chevallier, S.A. Shikora, A. Ramos		

5 Teams
(6 participants each)

3 Topics

9 Teachers

TOPIC A - PRIMARY SURGERY VS OTHER PROCEDURES Topic A will focus on OAGB/MGB as primary surgery. OAGB/MGB teachers will deeply go through indications, surgical technique, tips&tricks and appropriate follow-up. Several bariatric procedures are also currently endorsed by various national and international societies. Topic A will focus also on the results different procedures (LSG, LAGB, RYGBP, SADI-S, etc) currently provide, comparing these results with large and significant OAGB/MGB series. Participants will have the chance to stay in the O.R. during the surgery in order to share practical activities from the patient preparation to the end of the procedure deeply going through each single step.	DAY 0	Evening arrival	
	DAY 1	08.30-18.00 (open light lunch from 12.30 to 14.30)	08.30-8.40: Welcome and Intro of Day 1
			08.40-16.30: Change and access to Operating Room. OAGB/MGB procedures performed as primary surgery
	DAY 2	08.30-14.00 (open light lunch from 12.00 to 13.00)	16.30-18.00: Frontal lesson. OAGB/MGB as primary surgery and main bariatric procedures indications surgical technique, tips&tricks and comparison with other bariatric procedures
08.30-8.40: Welcome and Intro of Day 2			
		08.40-13.00: Change and access to Operating Room. OAGB/MGB procedures performed as primary surgery	13.00-14.00: Closing Frontal Lesson. The appropriate follow-up process. Wrap-up and departure
TOPIC B - OAGB/MGB TECHNICAL VARIANTS Although correctly considered as sister procedures, OAGB/MGB in both variants, the American one introduced by Rutledge in 2001, and the Spanish one introduced by Carbajo in 2005, present some differences. All differences will be analyzed in Topic B and discussed to provide a detailed image of these bariatric procedures. Participants will have the chance to stay in the O.R. during the surgery in order to share practical activities from the patient preparation to the end of the procedure deeply going through each single step.	DAY 0	Evening arrival	
	DAY 1	08.30-18.00 (open light lunch from 12.30 to 14.30)	08.30-8.40: Welcome and Intro of Day 1
			08.40-16.30: Change and access to Operating Room. OAGB/MGB procedures performed
	DAY 2	08.30-14.00 (open light lunch from 12.00 to 13.00)	16.30-18.00: Frontal lesson. OAGB/MGB Indications, Surgical technique, tips&tricks. Deep dive "Comparison between the two variants"
08.30-8.40: Intro of Day 2			
		08.40-13.00: Change and access to Operating Room. OAGB/MGB procedures performed	13.00-14.00: Closing Frontal Lesson. Literature overview and the position of the main scientific societies.
TOPIC C - REVISIONAL SURGERY AND TECHNOLOGY Topic C will focus on OAGB/MGB performed as revisional surgery following previous bariatric interventions. Bariatric restrictive procedures, especially adjustable gastric banding and sleeve gastrectomy, are often followed by weight regain. In these cases OAGB/MGB has proven to be an ideal approach as redo surgery. Faculty will also go through a deep overview of the most advanced technologies available for re-do bariatric surgery. Participants will have the chance to stay in the O.R. during the surgery in order to share practical activities from the patient preparation to the end of the procedure deeply going through each single step.	DAY 0	Evening arrival	
	DAY 1	08.30-18.00 (open light lunch from 12.30 to 14.30)	08.30-8.40: Welcome and Intro of Day 1
			08.40-16.30: Change and access to Operating Room. OAGB/MGB performed as revisional surgery
	DAY 2	08.30-14.00 (open light lunch from 12.00 to 13.00)	16.30-18.00: Frontal lesson. OAGB/MGB, Surgical technique and tips&tricks in Revisional Surgery
08.30-8.40: Intro of Day 2			
		08.40-14.00: Change and access to Operating Room. OAGB/MGB performed as revisional surgery	13.00-14.00: Closing Frontal Lesson. Overview of the most advanced technology available for bariatric surgery. Wrap-up and Departure.
CLOSING EVENT		DAY 1	
The Closing Event is the final step of the OAGB/MGB Euro MasterClass. All attendees and teachers will take part to this session. NAPLES - ITALY, FEBRUARY 18, 2022		16.00-19.00: OAGB/MGB present and future: different scenarios analysis	
		19.00-20.00: Award Ceremony	
		20.00: Farewell Dinner	

Participant Profile

Head of Dep or Reporting to Head of Dep

Self-reliant surgeon

Ambitious

Keen to get more and more self-reliance and visibility

Interested in bar one-anastomosis procedures

interested in joining a scientific international network

European and local bariatric scientific societies activities involved

Scientific empowerment

Fluent english

Introduction

- 16:00** Welcome to Italy, welcome to Napoli, welcome to OAGB/MGB Euro MasterClass
Marco Zappa
General Surgery, Fatebenefratelli Hospital, Milan, Italy
SICOB President
- 16:10** Five reasons to design a Masterclass
Mario Musella
Advanced Biomedical Sciences Department, "Federico II" University, Naples, Italy

Naming, it is time to understand us

- 16:20** The OAGB/MGB: IFSO nomenclature following Hamburg 2019 consensus meeting
Scott. A. Shikora
Department of Surgery, Brigham and Women's Hospital, Harvard Medical School, Boston, MA, USA
- 16:30** The OAGB/MGB: real numbers according to current IFSO data
Luigi Angrisani
Department of Public Health, "Federico II" University, Naples, Italy
- 16:40** Updated IFSO Position Statement on OAGB
Maurizio De Luca
Director Department of Surgery, Rovigo Hospital, Rovigo, Italy
- 16:50** Digging tunnels and building bridges: Me and the OAGB/MGB
Almino Ramos
Director of Gastro-Obeso-Center Institute for Metabolic Optimisation and Bariatric Surgery, Sao Paulo, Brazil

Technical focus

- 17:00** The MGB original Rutledge procedure
Antonio Susa
Bariatric Surgery Unit, Gruppo San Donato, Milan, Italy
- 17:10** The OAGB/BAGUA original Carbajo procedure
Miguel Carbajo
Centro de Excelencia para el Estudio y Tratamiento de la Obesidad, Valladolid, Spain
- 17:20** Hybrid techniques variations: how we do it
Luigi Piazza
ARNAS "G. Garibaldi", Catania, Italy
- Rui Ribeiro**
Centro Multidisciplinar da Doença Metabólica, da CLISA-Lusíadas, Lisbon, Portugal

Managing complications

- 17:40** Intraoperative
Emilio Manno
AORN "A. Cardarelli", Naples, Italy
- 17:50** Early
Kostas Albanopoulos
Hippokraton General Hospital of Athens, National and Kapodistrian University, Athens, Greece
- 18:00** Late
Francesco Greco
Fondazione Poliambulanza, Brescia, Italy

The OAGB/MGB stigma. Time to heal it

18:10 The reflux

Nasser Sakran

Holy Family Hospital, Nazareth, Israel

18:20 The real esophagogastric cancer rate

Jean Marc Chevallier

Department of Digestive and General Surgery, Hôpital Européen Georges Pompidou, Paris 5 University, Paris, France

18:30 Malabsorption

Giuseppe Navarra

General and Oncological Surgery, AOU Martino, Messina University, Messina, Italy

What EBM tells us following OAGB/MGB introduction in 2001. The results in 2021

18:40 Indications to surgery

Hasan Kais

Shamir Medical Center, Zerifin, Israel

18:50 Quality of published studies

Chetan Parmar

Whittington Hospital, London, UK

19:00 In the end: shades following lights

Nicola Di Lorenzo

General Surgery, Tor Vergata University, Rome, Italy

Round discussion

19:10 All Attendees and Teachers involved

Graduation Ceremony

19:45 Awarding of diplomas to all Attendees

Farewell Dinner

20:00 Roof Hotel Royal Continental

Info

Registration fee

Registration fee: € 3.900,00 (22% VAT non included) to be paid 50% by October 30, 2019 and 50% by April 30, 2020

The registration fee includes:

- Admission to 3 rounds in 3 different surgery centers and one day closing event in Naples (Italy)
- 36 hours of practical activities and 9 hour of frontal lessons
- congress kit, didactic materials
- lunches, coffee breaks, 2 nights hotel accommodation (*four star hotel, walking distance from the Operating Rooms*) for each round and 1 night on the occasion of the closing event

A total number of **6 participants** per Team will be enrolled.
